ISLAMIC FINANCE COMPATIBILITY

STRUCTURALLY COMPATIBLE WITH SHARIA MANDATES

Approximately one-third of GCC family office portfolios operate under Islamic finance mandates. The SPV structure used in this raise is designed to accommodate Sharia-compliant investor requirements: capital is isolated within the vehicle, returns are participation-based rather than interest-bearing, and risk is allocated transparently across investors. For the right investor base, this is a structural feature — not a constraint.

EQUITY & RETAINER

\$90,000

Equity retainer vesting monthly over 6 months, 3-month cliff. 50% vest immediately at cliff; remainder monthly through month six.

Up to 10%

Common stock allocation reflecting the strategic priority of the GCC expansion mandate.
